

EXHIBIT 1

compounds with negligible reactivity with a radical
 Non-photochemically reactive compound #7

Zero-volatile organic compounds - ester based

Methyl Acetate	Solubility	Resins	
	S	Styrene-Acrylic	elastomeric
low vapor solvent	S	Styrene	"
"	S	Styrene-Isoprene	"
"	S	Nitrocellulose	COATING
"	S	Alkyd Acid	"
	I	Silicone	"
	PS	cellulose Acetate	"
	S	Acrylic	"
	S	Terpene	TACTIFIER
	S	Polychloroprene	elastomeric
	S	Resin ester	TACTIFIER
	S	Carbonyl-Isoprene	"
	I	PVC	elastomer
	S	Epoxy	Resin
	S	Chlorinated Rubber	"
	S	Phenolic	"
	S	Urethane	"
	S	Vinyl	"

S = SOLUBLE

I = Insoluble

PS = Partially Soluble

Strong solvent for
 the most important resin types
 such as nitrocellulose and acrylic
 useful for coatings, inks and
 adhesives.

PS
